Thanks Mike and Rick. Before you all get too warm and fuzzy, we haven't heard back yet from BOR and yesterday Jim Britton (USACE) sent me a separate set of notes for me to consider (and I don't agree with several statements and points of emphasis). We'll see what BOR says, whether USACE submits more notes/comments on my summary, and whether USACE will acquiesce when I don't include some of their notes.

Even if there's some ongoing disagreement, we continue to narrow the disagreements to specific issues, and the meeting met the Hippocratic goal: "Do No Harm".

Columbia River Temperature TMDL - Draft Meeting Summary

Columbia Technical and Policy Group -

Thank you all for attending the March 4th technical/policy meeting in Seattle. I have drafted up a short summary of information that was shared and points of agreement at the meeting. Please review and get back to me with comments (and please cc everybody).

Thanks. -BC
